📍 Tagbilaran City, Bohol, Philippines

SUMMARY

Information Technology graduate with hands-on experience in full-stack web development, IT support, and database management. Skilled in building responsive web applications using React, JavaScript, PHP, Laravel, and MySQL while troubleshooting hardware, software, and network issues. Passionate about developing practical technology solutions that improve workflow efficiency and user experience.

PROJECTS

eReligiousServices Management System

Tech Stack: Laravel, MySQL, Tailwind CSS

- Developed a web-based reservation and scheduling system that streamlined liturgical service requests and improved operational workflow efficiency for university stakeholders.
- Developed automation-driven features including real-time calendar scheduling, role-based access control, and notification management to enhance coordination and service tracking.
- Optimized administrative processes by reducing manual workload, improving scheduling accuracy, and strengthening communication through centralized system automation.

EXPERIENCE

Provincial Government of Bohol, Administrative Assistant

08/2021 – 01/2022

Tagbilaran City, Bohol, Philippines

- Ensured accurate and efficient data management by systematically handling data entry, document filing, and administrative workflows, improving overall office organization and retrieval speed.
- Delivered timely basic IT support for office systems and devices, minimizing downtime and helping maintain smooth daily operations for staff.
- Managed and safeguarded confidential records with strict attention to detail and professionalism, supporting data integrity and compliance with office standards.

Provincial Government of Bohol, IT Support Specialist

12/2025 – 03/2026

- Provided hands-on technical support for hardware, software, and network troubleshooting, helping resolve issues and maintain system reliability.
- Managed systematic document control processes, ensuring accurate filing, indexing, and secure record organization for efficient retrieval.
- Assisted in IT and office infrastructure setup including workstation deployment, relocation support, and technical preparation for meetings and events.

EDUCATION
