

Joshua Russel P. Uy

Full Stack Developer • IT Support Specialist • Web Developer

ujoshua368@gmail.com • +63 919-503-4746 • Tagbilaran City, Bohol, Philippines • GitHub: JOSHUA-A69

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with hands-on experience in full stack web development, RESTful API design, database architecture, and IT support. Proficient in React.js, Laravel, PHP, JavaScript, MySQL, and Docker. Proven ability to deliver end-to-end software solutions — from requirements gathering and UI/UX design through deployment and technical documentation. Adept at resolving hardware, software, and network issues in fast-paced office environments. Strong communicator with a track record of improving operational efficiency through process automation and scalable system design.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Laravel, Bootstrap, Tailwind CSS

Databases: MySQL — schema design, query optimization, indexing, data integrity

DevOps & Tools: Git, GitHub, Docker, Linux CLI, Windows Server

IT Support: Hardware troubleshooting, LAN/Wi-Fi networking, OS setup (Windows/Linux), workstation deployment

Productivity: Microsoft Office (Excel, Word), AI-assisted workflows, technical documentation

Soft Skills: Problem-solving, attention to detail, time management, team collaboration, adaptability

WORK EXPERIENCE

Administrative IT Support Trainee

Provincial Government of Bohol — Procurement Management Unit | Dec 2025 – Mar 2026 • Tagbilaran City, Bohol, Philippines

- Provided Tier 1–2 technical support for computer hardware, software, and LAN/Wi-Fi network connectivity issues, reducing end-user downtime.
- Configured office workstations, peripherals, and presentation equipment for meetings and official events.
- Implemented organized digital and physical document management systems (filing, indexing, scanning) that improved record retrieval efficiency.
- Supported procurement workflow by coordinating document routing across departments, ensuring compliance with internal processes.
- Assisted in office relocation activities and maintained accurate equipment inventory records.

Office Clerk / Technical Support

Provincial Government of Bohol — Tourism Office | Aug 2021 – Jan 2022 • Tagbilaran City, Bohol, Philippines

- Delivered basic IT support for office devices and software applications, resolving user-reported issues promptly and accurately.
- Performed high-accuracy data entry, document preparation, and records maintenance under strict confidentiality requirements.
- Supported daily administrative operations, contributing to measurable improvements in office workflow and staff efficiency.

PROJECTS

eReligiousServices — Web-Based Reservation & Scheduling System

Tech Stack: Laravel • MySQL • Tailwind CSS • PHP • JavaScript

- Engineered a full stack web application for Holy Name University's Center for Religious Education and Mission (CREaM) to digitize liturgical service reservations and scheduling.
- Designed and implemented role-based access control (RBAC), real-time calendar scheduling, automated email notifications, and a secure in-app chat module.
- Architected a normalized MySQL database schema supporting high data integrity across reservation, user, and event entities.
- Conducted stakeholder interviews and workflow analysis to translate operational requirements into precise software specifications.
- Delivered measurable outcomes: reduced administrative workload, eliminated scheduling conflicts, and improved interdepartmental communication through automation.
- Built reporting and analytics dashboards to support data-driven decision-making by management.

Personal Portfolio Website

Tech Stack: React.js • JavaScript • CSS3 • Responsive Design

- Designed and developed a fully responsive portfolio website using React.js, showcasing projects, technical skills, and professional background.
- Optimized for performance, accessibility, and cross-browser compatibility to strengthen online professional presence.

EDUCATION

Bachelor of Science in Information Technology

Holy Name University | Tagbilaran City, Bohol, Philippines • Aug 2022 – May 2026

CERTIFICATIONS

Responsive Web Design — freeCodeCamp • October 2023

Front End Development Libraries — freeCodeCamp • August 2024
